OBJECTIVE

Aspiring Software Engineer with strong skills in Full-Stack Web Development, scalable backend systems, and AI-powered applications. Passionate about solving complex problems using Data Structures & Algorithms and building efficient, user-focused software. Seeking Software Engineer opportunities to contribute to innovative product development.

EDUCATION

K S Rangasamy College of Technology, Tiruchengode, Tamil Nadu

2023 – 2027 (Present)

B.Tech - Information Technology

CGPA: 7.80/10 (Up to Semester V)

INTERNSHIP

AICTE EduSkills (Google for Developers)

Jul 2025 – Sep 2025

Android Developer Virtual Intern

- Developed Android application modules using Android development fundamentals.
- Implemented responsive UI components and application workflows.
- Worked with Git-based version control and collaborative development practices.
- Gained hands-on experience in mobile application development and software engineering principles.

PROJECTS

Validoc AI – AI Powered Document Verification System | *React.js, Node.js, Express.js, FastAPI, Python, OpenCV, OCR*

- Developed an AI-powered document verification platform to detect tampered and suspicious documents.
- Integrated OCR for text extraction and automated document analysis, and built REST APIs for secure file upload and AI processing.
- Designed a responsive user interface with real-time verification results.

EduERP – Full Stack College ERP System | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Vite*

- Developed a full-stack ERP system supporting Student, Faculty, and Admin portals.
- Implemented JWT authentication, attendance management, dashboards, and role-based access control.
- Designed a responsive interface with reusable components and data visualization.

Online Bus Ticket Booking System | *Node.js, Express.js, MongoDB, JavaScript*

- Built a full-stack bus ticket booking platform with authentication, seat reservation, fare calculation, and booking management.
- Developed REST APIs and integrated MongoDB for efficient data storage and retrieval.
- Implemented secure authentication and responsive user interfaces.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL, C

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Vite

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, Vercel, Netlify, Render

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS

CERTIFICATIONS

Oracle – Generative AI Professional | **IBM Coursera** – Generative AI Prompt Engineering Basics

Udemy – The Complete Full-Stack Web Development Bootcamp

ACHIEVEMENTS

- Built multiple full-stack web applications using the MERN stack and modern development tools.
- Successfully completed the Google for Developers Android Virtual Internship through AICTE EduSkills.
- Earned industry-recognized certifications in Full-Stack Development and Generative AI.
- Developed AI-powered and enterprise-level academic projects using modern software engineering practices.

STRENGTHS

- Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Continuous Learning, Time Management.
